DETAILED ACTION

Response to Arguments

1. Applicant's arguments with respect to claims 11, 12 and 14-20 have been considered but are moot in view of the new ground(s) of rejection.

Claim Rejections - 35 USC § 102

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

3. Claims 11, 12 and 14-20 are rejected under 35 U.S.C. 102(b) as being anticipated by Barrow et al. (US 5,359,281).

Barrow et al. disclose a quick start and overvoltage protection circuit for a switching regulator comprising a first supply voltage (128) coming from a first terminal (gnd); a second supply voltage (88, 90) coming from a second terminal and a third terminal (130, 132); a first current path between the first terminal and the third terminal (through 132); a second current path between the first terminal and the second terminal (through 126); a third current path between the second terminal and the third terminal (through 126, 132, 130); and a two-way voltage regulator placed along the second current path (126), wherein the two-way voltage regulator comprises a transistor (126) having the drain coupled to the second terminal and the source coupled to the first and to the third terminal (through 132).

Conclusion

4. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
